

# DEVICE FEATURES

**883M** digital triaxial accelerometer and temperature sensor

**ILA200 series** inline adapters for analog IEPE accelerometers

**VDS100 series** 4-channel adapters for analog IEPE accelerometers

Modbus output

ILA210

OPC UA output

ILA220

VDS120 (coming soon)

MQTT output

VDS130

Triaxial vibration data

DC measurements

Temperature data

Supported input

General purpose vibration monitoring

Supported input

Supported input

High-resolution low-frequency monitoring

Supported input

Supported input

High-frequency monitoring

Supported input

Supported input

Monitoring in high-temp or harsh environments

Supported input

Supported input

Monitoring in hazardous locations

Supported input

Supported input
